

GENERAL OVERVIEW

Engineering History

Our Company was founded in 1911 by James Tighe, well-respected for his role in developing the water supply, distribution and treatment system for the rapidly growing city of Holyoke, Massachusetts. In 1926, he formed a partnership with Philip Bond, who added expertise in municipal engineering.

Over the years, Tighe & Bond has evolved to specialize in environmental engineering and consulting, focusing on water, wastewater, solid waste and hazardous waste, while continuing to provide expert civil engineering services. We have further enhanced our service offerings to include Geographic Information Systems (GIS), geotechnical, structural and electrical engineering. Known for designing innovative strategies for water systems, residuals management and remediation, the firm has provided consulting services to a wide variety of clients across the region.

One of the most experienced engineering firms in the Northeast, Tighe & Bond has built a reputation upon the technical knowledge, experience and capabilities we bring to each project we undertake, as well as the service we provide. Seasoned project managers, supported by principals of the firm, and experienced engineers and scientists on each and every project assure continuity, accountability, and a high quality service.

Current Expertise

Tighe & Bond is staffed by approximately 200 seasoned professionals, including professional engineers, environmental scientists and hydrogeologists. Working in teams, they share diverse expertise to benefit our clients. Professional registrations cover a wide range of disciplines; personnel specialize in the following areas:

- Civil Engineering
- Demolition Specifications
- Electrical Engineering
- Environmental Engineering
- Geographic Information Systems (GIS)
- Geotechnical Engineering
- Health & Safety
- Instrumentation & Control
- Mechanical/HVAC
- Parking Consultancy
- Regulatory Compliance & Permitting
- Remediation
- Site Assessment
- Site Development
- Solid Waste Management
- Structural Engineering
- Traffic Engineering
- Transportation Planning
- Wastewater Management
- Water Resources Engineering
