ZWEIGWHITE NAMES TIGHE & BOND A “BEST CIVIL ENGINEERING FIRM TO WORK FOR” DURING ITS 2011 NATIONAL SUMMIT IN SAN DIEGO

Westfield, Massachusetts – October 4, 2011 – At its annual *Best Firms to Work for Summit* in San Diego at the end of September, ZweigWhite recognized Tighe & Bond as one of the best civil engineering firms to work for in the nation. The New England-based firm ranked second among mid-size firms and eighth overall.

ZweigWhite, the publisher of *CE News*, sponsored the event that celebrates the winners of its *Best Firms To Work For* competition and offers engineering and architecture firms a place to share strategies, successes and industry news. The yearly competition is based on business practice data collected from numerous participating firms across the country, including feedback solicited through an employee survey.

The competitive ranking that results is based on comprehensive evaluations of factors such as firm culture and workplace practices, employee benefits, career development and growth opportunities, compensation, performance and recognition, as well as recruiting and retention rates. All firms that apply for this prestigious ranking and recognition are evaluated against each other, not a set standard. The ranking also classifies firms by size categories.

“This is the second time that we have been honored with this recognition as a best firm and we are thrilled. However, the tribute is especially meaningful this year since it dovetails with the celebration of our 100th year anniversary and a century of dedication to our clients,” comments David E. Pinsky, President of Tighe & Bond. “This recognition verifies once again that we are on the right track. Our hardworking employees are the key to our success and we are committed to their wellbeing and development so that they can continue to provide the high quality, responsive services that our clients deserve.”

Tighe & Bond

Founded in 1911 and celebrating 100 years in business this year, Tighe & Bond is one of the most experienced engineering firms in New England, with offices in Westfield, Worcester and Pocasset, Massachusetts; Middletown and Shelton, Connecticut; and Portsmouth, New Hampshire. Engineering News Record annually ranks Tighe & Bond among the top design and
