

HAVE A VEHICLE FLEET?

CHECK OUT MASSDEP'S NEW REPORTING REQUIREMENTS

MassDEP developed a one-time reporting rule requiring specific users to report fleet characteristics to the MassDEP by March 1, 2024. The reported information will allow MassDEP to assess the best way to develop charging infrastructure and programs to support and accelerate the medium-and heavy-duty zero emission vehicle market in Massachusetts.

VEHICLES EXEMPT FROM REPORTING REQUIREMENTS

- Military tactical vehicles and military tactical facilities owned or operated by the United States Department of Defense and/or the United States military services
- Vehicles awaiting sale
- Emergency vehicles
