## TECHNICAL

### Environmental Compliance Strategies<sup>1</sup>

Overview of a wide range of environmental compliance programs & strategies for maintaining compliance. **PFAS Update!**

### Wastewater Treatment Plant Operators Exam Prep<sup>1</sup>

This five-week course is designed for examination preparation. It is an ideal opportunity for prospective wastewater treatment plant operators and current wastewater treatment plant operators looking to upgrade their licenses or obtain licensure.

### TCHs, Industrial Wastewater Treatment<sup>1</sup>

This eight (8) hour course will provide an overview of typical wastewater treatment systems that are found in industry. Special consideration will be given to troubleshooting and problem solving associated with industrial treatment systems. Real life examples will be provided.

### Underground Storage Tank Operation<sup>1</sup>

This course will provide operators with the training needed to pass the Federal and State mandated UST operator examination. Curriculum will cover the regulatory requirements for monitoring and testing of cathodic protection systems, double wall tank and piping systems, spill buckets, dispenser sumps, vapor recovery systems, overflow prevention systems and spill protection systems. The course will also review recordkeeping requirements and best management practices for maintaining UST equipment. New MA Tank Inspection Standard.
